About weBoost

WE STRENGTHEN YOUR CELLULAR SIGNAL

Call, text, share, and connect with the peace of mind that your world is always within reach from virtually anywhere and at any time. To put it simply, weBoost connects.

From your home to your workplace and even on the go, we improve the way you experience everyday wireless communications by providing stronger, more reliable cellular signals while simultaneously enhancing your ability to receive and transmit data. At weBoost, we provide the industry's most advanced line of cellular signal boosters that work with cellular networks and carriers worldwide.

Best-in-class boosters

As a leader in wireless communications, everything we do is about making your cellular signal more reliable. We pioneer products that provide unparalleled cellular connectivity solutions for your car, home and workplace. We hold one of the broadest patent portfolios in our industry. Both voice and data, we enable our customers to take greater control over the most important function of cellular devices: effortless sharing.

Cellular boosters for all carriers

We approach everything we do with a global perspective and insatiable curiosity. We're proud to say that all weBoost products are designed, assembled, and tested at the company's U.S. facilities and are FCC certified where required. weBoost signal boosters work transparently on the network, boosting your cell signal and enabling consistent, seamless communication experiences across all carriers. At weBoost we enable an enriched communication experience for our customers by boosting cellular connectivity through our unique combination of product and industry leadership along with our unparalleled customer support.

Our Story

Founded by Jim Wilson, who as a kid loved amateur radio and after receiving his ham radio license at 14 years old started making antennas in his parent’s garage. And in 1968 started his first of many successful companies, Wilson Antenna, manufacturing and selling CB antennas and two-way radios.

Eventually, Wilson Antenna became the market leader and its products were seen as a status symbol for truckers.

Fueled by Passion

In 1997, Jim was working away from home and wasn’t able to stay connected with his family due to spotty cell phone coverage. This planted the idea for “cell phone signal boosting systems”.

After three years of intense research and development, Jim invented and patented the first cellular signal boosting solution giving way to who we are now, Wilson Electronics. Now, several years later we continue to innovate, develop, and pioneer technology as the industry market leader. We hold over 40 cellular signal boosting patents.

We are passionate about our work

Established in 2000
in St. George, Utah

Recognized global leader
in cellular boosting technology

Market Innovator with over
40 U.S. cellular signal patents

Normal cell coverage

Cell coverage with weBoost

How it Works

HOME & SMALL OFFICE

Dropped calls and slow data are generally caused by three things: distance from a cell tower, building materials in your home or office, or obstruction from tall objects such as trees, topography, and buildings.

weBoost devices are able to capture an exterior signal—even one that is far away—and amplify it in your car, home, or office. weBoost devices work on every network, for any carrier, to give you up to 32x your cell signal strength.

UP TO 7,500 sq. ft. COVERAGE

UP TO 5,000 sq. ft. COVERAGE

UP TO 1,500 sq. ft. COVERAGE

How to boost a cell signal

Signal boosters increase cell signal by collecting signals with a powerful antenna, delivering those signals to the booster, amplifying the cell signals so your devices receive them, and delivering your device's boosted signals back to the cell tower.

1 RECEIVES SIGNAL

The powerful antenna reaches out to access a voice and 4G/3G data signal, and delivers it to the booster.

2 BOOST SIGNAL

The booster receives the signal, amplifies it, and serves as a relay between your phone and the nearest cell tower.

3 BROADCASTS SIGNAL

Your devices get a stronger signal, and calls and data are fed through the booster back to the network.

How it Works

MOBILE

Dropped calls and slow data are generally caused by three things: distance from a cell tower, the frame of the vehicle itself, or obstruction from tall objects such as trees, topography, and buildings.

weBoost devices are able to capture an exterior signal—even one that is far away—and amplify it in your car, home, or office. weBoost devices work on every network, for any carrier, to give you up to 32x your cell signal strength.

FAMILY VEHICLES

TRUCK AND COMMERCIAL

RECREATIONAL VEHICLES

FLEET VEHICLES

How to boost a cell signal

Signal boosters increase cell signal by collecting signals with a powerful antenna, delivering those signals to the booster, amplifying the cell signals so your devices receive them, and delivering your device's boosted signals back to the cell tower.

1 RECEIVES SIGNAL

The powerful antenna reaches out to access a voice and 4G/3G data signal, and delivers it to the booster.

2 BOOST SIGNAL

The booster receives the signal, amplifies it, and serves as a relay between your phone and the nearest cell tower.

3 BROADCASTS SIGNAL

Your devices get a stronger signal, and calls and data are fed through the booster back to the network.

Connect 4G-X

SKU: 471104 MAP: \$899.99

FEATURES

- Boosts 4G LTE & 3G signals for small offices and large homes
- Coverage area up to 7,500 sq.
- For multiple devices and users
- Works on ALL cellular devices with ALL carriers simultaneously
- Enhances talk, text, and high-speed 4G LTE internet

⚠️ WARNING: This product can expose you to chemicals including Nickel, which is known to the State of California to cause cancer, and Bisphenol A, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov

About

The weBoost **Connect 4G-X** cell signal booster is our most powerful residential 4G building booster. weBoost's 4G-X is professional grade, allowing users to get better voice and data with fewer dropped calls, improved voice quality, faster uploads and downloads. This 4G-X Booster increases cell signals up to 32x and enhances 4G LTE and 3G signals for buildings up to 7,500 sq ft. As with all of our boosters, it is compatible with all US networks including Verizon, AT&T, Sprint, T-Mobile, US Cellular, Straight Talk and more. Straight-forward installation with easy instructions from our Quick Install Guide.

All parts are included in the weBoost 4G-X kit and friendly trained support staff on call to assist. All boosters come with a 2-year warranty.

About

Every lost connection is an opportunity missed. **Connect 3G-X** cell phone signal booster is your solution to all those time's you've had to walk into another room to find a stronger, more reliable cell signal. weBoost's 3G-X improves indoor cellular voice and 3G data signal, makes signal more reliable, and improves 3G data speeds. The device comes with everything you need for a complete installation.

If you need help, give a call to our friendly, U.S.-based customer support. Complete with a 2-year warranty from manufacturer and a 30-day money back guarantee. Start boosting your signal on all major cell carriers in the U.S. with the Connect 3G-X.

Connect 3G Directional

SKU: 472205 MAP: \$399.99

FEATURES

- Boosts 3G signals for entire home, office or cottage
- Coverage area up to 5,000 sq. ft.
- For multiple devices and users
- Works on ALL cellular devices with ALL carriers simultaneously
- Enhances talk, text, and basic 3G internet

⚠ WARNING: This product can expose you to chemicals including Nickel, which is known to the State of California to cause cancer, and Bisphenol A, which is known to the State of California to cause birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov

About

The weBoost 3G-only cell phone signal booster is the **Connect 3G Directional**. This booster helps you get better voice and data with fewer dropped calls, improved voice quality, faster uploads and downloads. The Connect 3G Directional boosts cell signals up to 32x, enhances 3G voice, and data for buildings up to 5,000 sq. ft.

The Connect 3G is compatible with all US networks including Verizon, AT&T, Sprint, T-Mobile, US Cellular, Straight Talk and more. DIY installation. All parts are included in the kit and trained support staff on call to assist. The Connect 3G comes with a 2-year warranty from manufacturer and a 30-day money back guarantee.

Coverage Area

IF YOUR OUTSIDE SIGNAL IS	YOUR BOOSTED SIGNAL MAY BE
●●●● -89 AND LOWER About 5 bars	UP TO 5,000 sq. ft.
●●●● -90 dB About 3 to 4 bars	UP TO 3,500 sq. ft.
●●○○ -100 dB About 1 to 2 bars	UP TO 1,000 sq. ft.
○○○○ No existing	A signal booster likely will not work

- 3G FAST NETWORK SPEEDS

About

weBoost's **Drive 4G-X** is our most powerful, professional grade 4G vehicle cell phone signal booster. Commonly used by first responders throughout U.S. to boost signals while out on the road with a 60% larger service range than the other boosters. The Drive 4G-X ensures that you get better voice and data with fewer dropped calls, improved voice quality, faster uploads and downloads, and allows up to 2 hours additional talk time in weak-signal areas. weBoost's 4G-X boosts cell signals up to 32x and enhances 4G LTE and 3G signals for everyone in the vehicle whether it's a car, truck or van.

Compatible with all U.S. wireless carriers including Verizon, AT&T, Sprint, T-Mobile, US Cellular, Straight Talk and more. All components needed for installation are included as well as simple instructions for a quick, easy setup. Plug the Drive 4G-X into the car's power supply, place the magnetic antenna on the center of the roof, and get better wireless signal on the road now. The Drive 4G-X comes with a 2-year warranty from manufacturer and a 30-day money back guarantee.

About

The weBoost Connect RV 65 cellular signal booster is a simple, effective solution to significantly improve the strength of cellular signal within any towable RV. This signal booster system provides benefit for all users on all cellular enabled devices on all carriers while in your parked RV.

Included in the kit is a telescoping pole (can go up to 25' tall) which allows the outside directional cellular antenna to maximize the signal from the nearest cell tower. Initial installation takes approximately 30 minutes, with only 10 minutes needed to set up and take down pole and outside antenna when parked.

The Connect RV 65 uses a powerful 5-band cellular signal booster to provide maximum signal inside your RV, making it most effective even when used in weak cell phone signal areas. weBoost cellular signal boosters improve data speeds as well - including 4G LTE - no matter which cellular carrier you use in the United States. The Connect RV 65 comfortably handles multiple simultaneous connections across multiple carriers, providing effortless cellular voice and data communications for all users.

weBoost's Connect RV 65 comes with a 2-year warranty.

Specifications

MODEL NUMBER	471203*	
FREQUENCIES	Band 12/17	700 MHz
	Band 13	700 MHz
	Band 5	850 MHz
	Band 4	1700/2100 MHz
	Band 2	1900 MHz
MAX GAIN	65 dB	
IMPEDANCE	75 Ohm	
POWER	110-240 V AC, 50-60 Hz	
CONNECTORS	F Female	
BOOSTER DIMENSIONS	6.5 x 4.25 x 1.25 in	
BOOSTER WEIGHT	0.445 lbs	

Installation

- 1 **Receives signal:** The powerful antenna reaches out to access a voice and 3G, 4G, and LTE data signal, and delivers it to the booster.
- 2 **Boost signal:** The booster receives the signal, amplifies it, and serves as a relay between your phone and the nearest cell tower.
- 3 **Broadcasts signal:** Your devices get a stronger signal, and calls and data are fed through the booster back to the network.

About

The **Drive 4G-X RV** is our powerful in-vehicle cell phone signal booster kit certified for use anywhere in the US. The Drive 4G-X RV boosts voice and data with max FCC-allowed 50 dB system gain, enhancing 4G LTE, as well as 3G network signals, up to 32x. RVers get fewer lost connections and dead zones, better call quality as well as faster data uploads and downloads whether parked or in-motion in their RV. Works in all classes of RV; Class A, Class C and all towables.

As with all weBoost boosters, all components needed come in one package for easy DIY installation. This includes inside and outside antennas, coax cables with connectors pre-installed and both a 110V AC wall plug and a 12V fused DC hardwire power supply. The Drive 4G-X RV works with all cellular devices, on all U.S. carriers, simultaneously.

All weBoost boosters come with a 2-year warranty.

About

The **Drive 4G-X OTR** is our most powerful in-vehicle truck cell phone signal booster certified in the US, with Wilson Electronics* ruggedized, all weather OTR Truck Omni-Directional Antenna for maximum connection range and a 60% larger service range than the other boosters out there. The Drive 4G-X OTR boosts voice and data with max FCC-allowed 50 dB system gain, enhancing 4G LTE, as well as 3G and 2G network signals, up to 32x. Drivers get fewer lost connections and dead zones, better audio quality, faster data uploads and downloads with this premier signal booster.

As with all weBoost boosters, all components needs for installation come in one package for easy DIY installation. The power supply plugs into CLA, while ignition power kits are also available. The Drive 4G-X OTR works with all cellular devices and all U.S. carriers. The booster kit comes with parts to accommodate multiple installation options. Included are 2 mast extensions, 3-way antenna mount, side exit adapter, antenna spring, cable adapter, and thread lock packets.

All boosters come with a 2-year warranty.

About

The weBoost **Drive Sleek OTR** cellular signal booster improves voice and 4G/LTE and 3G data speeds inside your semi-truck, wherever the road takes you.

Designed specifically for today's connected truck driver, this kit combines the popular Drive Sleek cradle booster along with our best-performing 4G Trucker Antenna in a versatile, cost-effective communications solution.

The included 4G Trucker Antenna is compatible with all 3/8" x 24 CB antenna mounting points on the truck, or any after-market CB antenna mount.

This cellular signal booster delivers the maximum signal gain allowed by the FCC for cellular cradle boosters and comes with all components needed in one package, making DIY installation a breeze. Like all weBoost products, the Drive Sleek OTR come with a 2-year warranty.

About

The **Drive 4G-X Fleet** is a powerful cellular signal booster, specifically designed for fleet vehicles like: police cars, government or commercial vehicles, delivery trucks or whatever your fleet might look like. It boosts all carriers simultaneously giving your staff the signal strength they need to communicate and stay connected with others on your team no matter their cellular provider.

This kit uses a high performance NMO antenna, which **REQUIRES PROFESSIONAL INSTALLATION**. The Drive 4G-X Fleet boosts voice and data with max FCC-allowed 50 dB system gain, enhancing 4G LTE and 3G network signals up to 32x.

Compatible with all U.S. wireless carriers including Verizon, AT&T, Sprint, T-Mobile, US Cellular, Straight Talk and more.

Like all weBoost products, the Drive 4G-X Fleet comes with a 2-year warranty and 30-day money back guarantee.

Antennas (In-Depth)

High-Gain Antennas

Rugged, High-Gain Antennas Deliver Powerful Performance

Professional drivers demand top performance from their equipment. Wilson provides just that with its line of Trucker, RV, Marine and NMO antennas. Available in three models for alternative installations. These 4G antennas offer the highest allowable gain.

Engineered specifically for trucks, RVs, fleet and marine applications, these popular antennas can also be used for fixed installation on buildings.

304415*
**4G-OTR Antenna
Truck Edition**
19 in. Ruggedized for heavy-duty vehicle, RV and trucking applications.

304420*
4G Marine
9.8-inch High gain, compact, ruggedized for marine applications. Fits standard marine mounts

314405*
4G NMO Antenna
3.3-inch High gain, omni-directional antenna. Ideal for mobile and IoT installations. Works on both indoor/outdoor applications.

Features

- Mobile, marine and building use
- No ground plane required. Built-in ground plane allows for use on any surface - metal, fiberglass, wood, etc.
- Mounting options available for any application

Signal Patterns

H - Plane @ 850 MHz

H - Plane @ 1920 MHz

SPECIFICATIONS

PART NUMBER	304415	304420	314405
Impedance	50 ohms		
Signal Pattern	Omni		
Polarization	Vertical		
Ground Plane	Built-In Ground Plane		
Connector	SMA MALE		NMO
Material	Radiator: Aluminum, High Strength ABS Mast: Stainless Steel, Fiberglass Epoxy	UV Resistant PVC	High Heat ABS
Coax Cable	RG58 - 14 feet / 4.3 meters	20' White RG-58 N-male to SMA-male	Recommended use with NMO mount cable with 14ft RG58 (901150 and 905814)
Height	19 in / 49 cm	9.8 in x 250 mm	3.3 in x 84 mm
Mount	Standard CB 3/8-inch x 24 Thread	Standard Marine Mount 1" x 14 thread	901150 (sold separately)

General Mobile External Antennas

Stay connected on the road with weBoost mobile antennas

Designed for use with our mobile signal boosters, weBoost wide range of mobile antennas offers top performance and multiple mounting options. Our best-selling magnet-mount antennas install in seconds and are transferable between vehicles. For a more permanent installation, users can choose from glass- or NMO-mount options.

Features

- Perfect for cars, vans and light trucks
- Mobile and indoor use

Accessories

Vehicle Antennas — Internal

4G Slim Low-Profile Antenna

314401*

- 700-2700 MHz
- w/ 10ft. LMR100 Cable
- SMA Male Connector

4G Desktop antenna used with Drive 4G-X RV

311160*

- 700-2700 MHz
- w/3 in RG174 and 13 ft RG 58 Cable
- SMA Male Connector

4G Wilson Low Profile Antenna

311106*

- 700-2170 MHz
- w/ 14 ft RG58 Cable
- w/ SMA Male Connector

Cellular Cradle Plus Antenna (3G)

301148*

- 800/1900 MHz
- w/ 6.5 ft. RG174 Cable
- SMA Male Connector
- 901120 - Gooseneck Mount
- 901134 - Cradle Mounting Kit

Vehicle Antennas — External

Dual Band Mini Magnet Mount Antenna (4G)

301113*

- Omni directional 700-2700 mhz
- 800/1900 MHz
- FME Female Connector
- 10' Coax Cable
- w/ 12.5 ft. RG174

Magnet-Mount Antenna (3G)

301103*

- 800/1900MHz Omni Directional
- w/ 12.5 ft. RG174 Cable
- FME Female Connector

Mini Magnet-Mount Antenna (4G)

301126*

- Omni Directional 700-2700MHz
- w/ 12.5 ft. RG-174 Cable
- SMA Male Connector

4G NMO ANTENNA

314405*

- Omni directional 700-2700 mhz
- 800/1900 MHz
- NMO Connector

4G-OTR Antenna Truck Edition

304415*

- Spring Mount Kit
- 3 Way Mount
- w/ 14 ft RG58 cable
- SMA Female connector
- Includes 3-Way Mount (901104)

Glass-Mount Antenna (3G)

311102*

- 700/800/900/1900 MHz Omni Directional
- w/ 14 ft/ RG58 Cable
- SMA Male Connector

NMO Antenna (3G)

311104*

- 800/1900 MHz Omni Directional

NMO Trucker Antenna (3G)

311112*

- 800/1900 MHz Omni Directional

Magnet-Mount Antenna (3G)

311125*

- 800/1900 MHz Omni Directional
- w/ 12.5 ft. RG174 A/U
- Cable SMA Male Connector

Magnet-Mount Antenna (3G)

311128*

- 800/1900 MHz Omni Directional
- w/ 12.5 ft. RG174 A/U
- TNC Male Connector

Magnet Mount Antenna (3G)

311703*

- 900/1800 MHz Omni Directional
- w/ 12.5 ft. RG-174A/U Cable
- SMA Male Connector

NMO Antenna (3G)

314203*

- Omni-Directional iDEN/ PCS 800/900/1900 MHz

4G Wide Band Omni-Directional Marine Antenna

304420*

- Designed as a boat exterior antenna
- Works with 50 Ohm amplifiers and accessories
- Weather resistant and easy to install
- w/ 20 ft. RG58 white cable
- w/ N-male to SMA male connector

Power Supplies

BUILDING POWER SUPPLIES		DESCRIPTION	COMPATIBLE WITH
850010*		AC/DC Power Supply 12V/3A	471104, 462127, 462227, 462327, 463127, 463227, 463327, 460127, 460227, 465134, 463134
850011*		AC/DC Power Supply 6V/2.5A	470105, 472205, 472105, 473105, 470410
850012*		AC/DC Power Supply 5V/4A	470101, 470103, 471203, 460119, 461119
859969*		AC/DC Building Power Supply 5V/2A w/Mini USB Jack	470113, 460109, 460209
VEHICLE POWER SUPPLIES		DESCRIPTION	COMPATIBLE WITH
859913*		DC/DC Vehicle Power Adapter 6V/2A	470510, 470121, 470210, 470102
851111*		DC 12V Fused Hardwire Power Supply	470410, 470221
859938*		DC/DC Power Adapter 12V/3.3A	470111
859110†		DC/DC Power Supply 5V/3A with 3 ft USB Cable	470106, 470113
859911†		DC/DC Power Supply 5V/3A	470106
859923*		DC Hardwire Power Supply 6V/2A	460219
859989*		DC Hardwire Power Supply 5V/1A	460309

Warranty Overview

2 Year Warranty

weBoost Signal Boosters are warranted for two (2) years against defects in workmanship and/or materials. Warranty cases may be resolved by returning the product directly to the reseller with a dated proof of purchase.

Signal Boosters may also be returned directly to the manufacturer at the consumer's expense, with a dated proof of purchase and a Returned Material Authorization (RMA) number supplied by weBoost. weBoost shall, at its option, either repair or replace the product.

This warranty does not apply to any Signal Boosters determined by weBoost to have been subjected to misuse, abuse, neglect, or mishandling that alters or damages physical or electronic properties.

Replacement products may include refurbished weBoost products that have been recertified to conform with product specifications.

RMA numbers may be obtained by contacting Customer Support.

To start your return:

1. Contact Customer Service at 866-294-1660 for troubleshooting and possible return/exchange of product.
2. After booster information (serial number, model number, date of purchase) is provided, an RMA number is given to the customer.
3. Once shipping information is provided to a Customer Service agent, the agent explains to customer that they can ship the returning product(s) to the following address:

Main Address:
Wilson Electronics
3301 E. Deseret Dr, #18
St George, UT 84790

- This can be shipped in any form/fashion (i.e. UPS, USPS, FedEx, etc.)
4. Once product(s) arrives at our facility, a replacement will be shipped.
 - If refunding product, once we have received package from customer the refund will typically take 7-10 business days for charges to appear in customer's account.
