

# The smart way to protect and grow your business.

Ideal for businesses, the UltraSync™ SmartBusiness system delivers comprehensive and cost-effective security. Reliable and convenient, UltraSync lets you adjust your building's systems to match your ever-changing schedule.

### 1. Carbon Monoxide Detectors

Protect your employees and customers from deadly carbon monoxide gas.

### 2. Motion Detectors

Feel even safer with added security from advanced motion sensors. For example, receive a push notification from the UltraSync app when a sensor has been triggered.

### 3. Smoke and Heat Detectors

Keep people and properties safe with early detection of smoke and fire.

### 4. Modular Hub

Add-on modules to increase the size of the system and expand security and smart device capabilities.

### 5. Door/Window Sensors

Know immediately if a door or window has been opened.

### 6. Smart Devices

Remotely manage business systems like HVAC and lights.

### 7. Sensors

Respond to situations quickly with sensors that detect environmental hazards, flood or freezing situations, breaking glass and rising heat/smoke.

### 8. Video Cameras

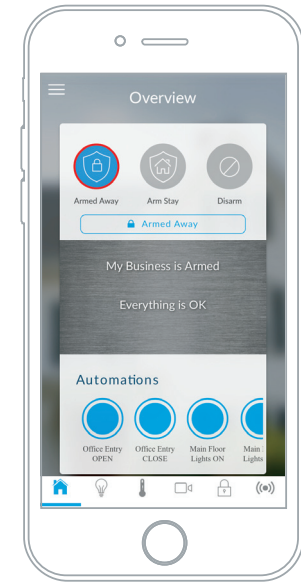

Indoor and outdoor video cameras monitor remote and sensitive areas, providing another layer of security.

### 9. Keyfobs

Be in control with this small, powerful touchpad that acts like an electronic key to arm and disarm your business's security system.

### 10. Door Locks

Advanced technology allows you to remotely lock and unlock doors using your smartphone or tablet.

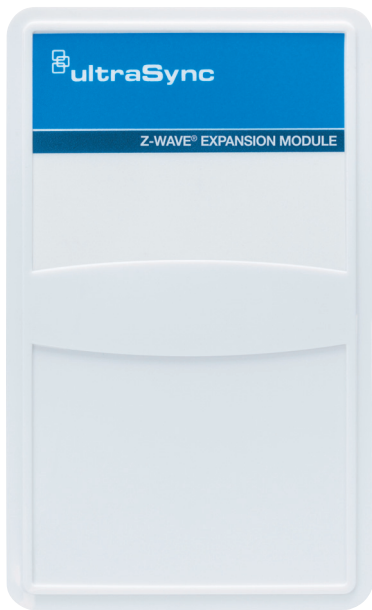

## UltraSync App

Built on cloud-based technology, the UltraSync system and app give you the ability to remotely manage and automate building systems—like HVAC, lighting and door locks—from your smartphone or tablet. Convenient and time saving, the app works with both iOS and Android™ devices.

# Bringing smart business functions together in one integrated system.

UltraSync™ lets you add on smart-enabled devices without having to upgrade the entire system. You can then easily control and manage how the devices work together, optimizing their response to your evolving business needs.
