

VISTA-48LA

VISTA® Control Panel

Resideo is proud to present the VISTA-48LA control panel. More powerful than the VISTA-48D, this control panel offers uploads/downloads through the Internet with support for 4 graphic touch keypads and an increase in digits for telephone reports.

FEATURES AND BENEFITS

- 8 wired Basic zones, up to 7 can be doubled or double-balanced
- 3 independent partitions, one of them may be chosen as a common area
- 48 user codes, each with assignable authorization levels
- Uploading / Downloading via Internet
- Graphic keypad support
- Increase in numbered digits for reporting by telephone
- Automatic alarm reset
- Sabotage Code (SC) lock out
- Compatible with wireless 5800 series (up to 40 zones)
- Expands up to 48 wired or wireless zones
- 48 total zones
- Controlled by real-time clock and has a memory capacity for 254 events
- Telephone line malfunction monitor
- Hour/Day agendas for users, exits, time window for self-arming/disarming
- Supports up to 16 relays
- 2 Programmable voltage outputs on master card

VISTA-48LA Features

Uploads/Downloads

Uploading / Downloading via Internet using 78471/78471-E module.

Advanced Partitioning:

- Up to 3 independent partitions
- Partition No. 3 can be a common area
- Users may be assigned to any combination of partitions

Event Memory:

254 visible events through the COMPASS Downloader or with alphanumeric or touchscreen keypads

Separate Installer Code:

VISTA-48LA has a separate installer code for easy service

Incorporated Malfunction Monitor through Telephone Line:

The VISTA-48LA malfunction monitor can warn about problems with the security system's communication line

Schedules:

- Up to 32 hours, 8 defined by installer and 24 defined by user
- User codes may be assigned from one to eight groups, each group has its own time slot and days of the week within which the user codes are functional
- The operation schedule can control the times and days
- The outputs can be activated by times
- The testing reports can be scheduled
- Each partition has its own schedule for auto-arm/disarm and can have the option of being repetitive or not (temporary schedules)
- All schedules, when allowed by the user, outputs, auto-arm/disarm can be set to repetitive or not (temporary programming)

The Best Wireless:

The 5800 series has a nominal range in interior spaces of 60 meters. The Honeywell Home hybrid systems (wired/wireless combination) have been recognized as an efficient tool to overcome installation obstacles.

Ease for End Users:

The VISTA-48LA supports particular wireless devices that simplify the customer's life. Available in 345MHz

- 5802WXT - Supervised Collar-type or belt clip
- 5834-4 4-button programmable wireless key chain
- 5828 - 2-Way wireless, full-featured alphanumeric keypad
- "Follow me" feature (beeping sound)- phone number that the system calls in case of alarm.
- Present and Active Feature- monitors activity of occupants at a protected location
- Siren Delay Option when partially armed

These interfaces for end users eliminate the complexity of arming and disarming, and the need for entrance / close delays

Family of Compatible Keypads:

Resideo has taken keypad technology to new heights. These new keypads offer ease of use, smooth design, a removable door and complete compatibility.

- Series 6148 - New design, Fixed-Word LCD Screen, light-up keys (local languages), tamper switch (on select models)

- Series 6164 - New design, 2 x 16 Customizable light-up LCD screen, light-up keys, 4 incorporated zones / programmable relay and 4 auxiliary keys. (Versions in local language and generics may require optional covers in local languages)
- Graphic Touch Keypads-Supports up to 4 Graphic keypads; 6290W/6290WC or TuxedoW/TuxedoWC with easy read icons and menu-controlled messages, one button arm.

These keypads cover a complete range of applications, from low to high profile.

Convenience and control:

With the addition of the TuxedoW/ TuxedoWC the VISTA-48LA can control Z-Wave Automation devices within a home or business. These devices can be activated by:

- Manual Activation
- Wireless Devices
- System Events (Arming, Disarming, Alarms, etc)
- Schedules

VISTA-48LA Technical Specifications

ELECTRIC:

Auxiliary Power 12VDC, 600 mA max.
Battery support up to 7Ah
Transformer 16.5 VAC / 40 VA
Alarm Output 12 VDC, 2.0 A max.
Programmable Voltage Outputs: A on 12V DC/ 100mA and B on 12V DC/ 30 mA

CONTROL OUTPUT:

Supports 16 programmable outputs
Supports 2 programmable voltage outputs incorporated onto the card
Supports up to 4 relay cards (part no. 4204) with 4 card relays or less if the 6164 keypad relays are used

ZONES:

8 wired zones
Selectable wiring method: NC.NO, supervised EOL, dual balanced, zone overlap
Selectable response: 10 msec., 400 msec., 700 msec., 1.2 sec.
Assignable to any partition
23 zone types to choose from, 4 of which are customized and configurable by the installer
Programmable suppression of flashing sensor

SUPPORTED DEVICES:

Wireless Receivers:
Series 5800 5881ENL, 5881ENM, 5881ENH, 5883
6160RF, 6162RF

SUPPORTED WIRELESS DEVICES

5828 Alphanumeric wireless 2-way keypads
Wireless key chains 5834-4
Diversity reception with two antennas
Remote mounting for improved reception
Individual supervision, RF interference detection and low battery detection

WIRED EXTENSION DEVICES

4219 - 8 wired zones - 16mA
4204 up to 4 relays - 15mA (Each active relay consumes 40mA)
4229 - 8 wired zones and 2 relays
36mA

SUPPORTS Z-WAVE DEVICES

Through the VAM (Vista Automation Module) and TuxedoW/TuxedoWC

KEYBOARDS

6164 customized language (required for programming) -100mA
Series 6148, fixed words LCD -25mA
6290W/6290WC TouchCenter + TuxedoW/TuxedoWC
Supports Two-Wire Smoke Detectors, up to 16 on Zone 1.
Keyswitch devices - 1 per Partition

TRANSMITTERS

5800 Family
Duracell Lithium 3 Volt batteries
Range up to 60 meters
Learning Mode
Tamper protection against cover removal

LIST OF AGENCIES

CE Approved
TBR21 approved for Western Europe
ACA approved for Australia
