

PROFUSION® ACCESS CONTROL CABLES

Fewer Hassles, More Profit

Reduce costs and installation time with the innovation of Profusion. Bundling individual lock power, door contact, card reader and request-to-exit wiring in a single jacketless cable, **Profusion reduces entry point wiring time by up to 30% and material costs by up to 16%.**

Honeywell Genesis® Cable's Profusion technology delivers the ideal balance of reliability and ease of use:

- Remains unified across long runs**
 Twisted together like a rope, Profusion components cling together around bends and obstructions for smooth, snagless pulls.
- Easy to separate at the point of termination**
 Color coded and unconstrained by binders, adhesives, or thick overall jackets, Profusion components separate easily, conveniently allowing for quick and simple terminations.

APPLICATION	COMPONENT	DESCRIPTION
Access Point (Standard)	Reader	22 AWG 6 Stranded Conductors Shielded, White Jacket
	Door Strike	18 AWG 4 Stranded Conductors, Orange Jacket
	Door Contact	22 AWG 2 Stranded Conductors, Blue Jacket
	Request-to-Exit	22 AWG 4 Stranded Conductors, Green Jacket
APPLICATION	COMPONENT	DESCRIPTION
Access Point (Noise Sensitive)	Reader	22 AWG 6 Stranded Conductors Shielded, White Jacket
	Door Strike	18 AWG 4 Stranded Conductors Shielded, Orange Jacket
	Door Contact	22 AWG 2 Stranded Conductors Shielded, Blue Jacket
	Request-to-Exit	22 AWG 4 Stranded Conductors Shielded, Green Jacket
AVAILABLE OPTIONS		
RATING	LENGTH	PACKAGE
Riser & Plenum	1000' & 500'	Reel

Save on installation time and material costs by leveraging the revolutionary technology of Profusion.
