

AX-RELAY6

Relay module for power surveillance

Specification

Size:	67(W)x50(L)x30(H)(mm)
Input:	8-30VAC or 11-30VDC
Current :	45mA@12VDC
Contacts Rated at:	5A@24VDC 5A@30VDC
Operating temp:	-20-+70°C
Weight:	0.08kg

Basic Instruction

An exceptionally versatile version of the relay module, the relay module will operate on AC Voltage ranging from 8 volts to 30 volts and will also work satisfactorily on DC voltages from 11 volts to 30 volts. The Relay Module is worked when power input then contacts will change over from NC (Normally Close) to NO (Normally Open).
