

PV Extension Cable

epcom[®]
POWER ⚡ LINE

Model : **CFMC41MRED**

El 10AWG **Rojo** PV cable cuenta con un conector MC-4 hembra y macho en ambos extremos.

Application

PV Extension cable is typically used in photovoltaic power generation system, which is used to connect solar panels to inverters.

- Cable: 10AWG UL verified **RED** Cable
E-beam cross-linked compounds
High resistance against UV, ozone and hydrolyzation
High temperature resistance, materials will not melt or flow
Flexibility under cold conditions
Long usable life, expected usable life over 25 years
Applied standard: UL 4703
- Male & Female Connector: UL verified PV Connectors
Highest PPO Material
IP67 Waterproof
Rated Voltage DC 1500V
Operation Temperature: -40°C ~ +90°C
- Length: 1 Meter
