

SM040KAMFA | SMART APP ONLINE 3-PHASE MODULAR UPS SYSTEM

Safeguard mission-critical applications with seamless, double-conversion power protection

The CyberPower SM040KAMFA Smart App Online 3-Phase Modular UPS System brings flexibility, space savings, and efficiency to 3-Phase power protection technology. Configurable for N+N system or N+1 power module redundancy, the system can intelligently manage individual modules to achieve higher efficiency. The customizable modular design can be configured as a tower, side-by-side, or integrated within a rack. The high-density, scalable 10kVA/10kW power modules are 2U in height, saving space while providing more options for capacity expansion.

The SM040KAMFA features double-conversion topology for seamless power protection and a pre-installed RMCARD205 for remote management. The user-friendly 7" color touchscreen displays key status indicators at-a-glance. Three-stage Smart Battery Management (SBM) equalizes battery voltages and reduces excessive heat to extend battery life. Plus, hot-swappable power modules, battery and, bypass allow for rapid replacement and

minimal impact to system operation. Ideal for high-end data centers, the SM040KAMFA 3-Phase Modular UPS System assures reliable, high-quality AC power and includes a One-Year Limited Warranty.
