NEW TYPE ECCENTRIC CONE TYPE FLARING TOOLS

CT-809

Product

- 1-** New eccentric conical flaring tool
- 2-** Trimming knife
- 3-** Common extrusion expanding tool
- 4-** Pipe cutter

Advantage

- 1. Circular riveting process for expanding pipe strips to ensure long-term reliable use
- 2. The expansion pipe has a curved transition, and the copper pipe will not break after long-term use
- 3. Design the handle according to ergonomics, comfortable and effortless
- 4. Circular riveting, precise pipe expansion
