

DIRECTIONAL LEDS

ED9015 SERIES

Hide-A-LED™ Concealed Warning

ECCO's ED9015 Series is a high-intensity directional LED warning light specifically designed for vehicle headlight and taillight applications. In addition, the ED9015 can be surface mounted to the vehicle exterior using the included mounting bezel. It features six LEDs that provide exceptional warning with the electronics being embedded in the lighthouse, eliminating the need for an in-line driver module. All 29 (single-color) and 69 (dual-color) flash patterns are synchronizable with other Hide-A-LEDs and the ED3511. Additional benefits of LED technology include low current draw and a long maintenance-free service life.

Models

PART NO.	TYPE	ILLUMINATION COLOR OPTIONS	AMPS
ED9015X	Single	■ A ■ B ■ W ■ R	0.67
ED9015XX	Dual	■ AG ■ AW ■ BA ■ BW ■ RA ■ RB ■ RW	0.46

Replace "X" in part number with desired color: A=amber, B=blue, G=green, W=white, R=red

Features and Benefits

- 12-24 VDC
- 29 flash patterns (single-color), 69 flash patterns (dual-color)
- ED9015 Series replaces the 9014 Series
- All electronics embedded in lighthouse
- 1" headlight/taillight mount or surface mount using included bezel
- Six LEDs per lighthouse
- Multiple heads are synchronizable (simultaneous or alternating operation)
- Polycarbonate lens and 12" cable
- Temperature Range: -40°F to +149°F (-40°C to +65°C)
