

FitDP-470A-R

Version 1.0

Max. 10F termination, 1:9 or 1:8 micro-type splitter

FitDP-470A outdoor pre-connectorized fiber distribution box provides a protected access point between the distribution cable and the drop cable. FiberHome Fiber Distribution Box provides an ideal connection point for network installation and maintenance. With the protection grade of IP68, FitDP-470A outdoor pre-connectorized fiber distribution box is adaptable to harsh environments, even with limited space.

*Only for reference, refer to physical objects for more details

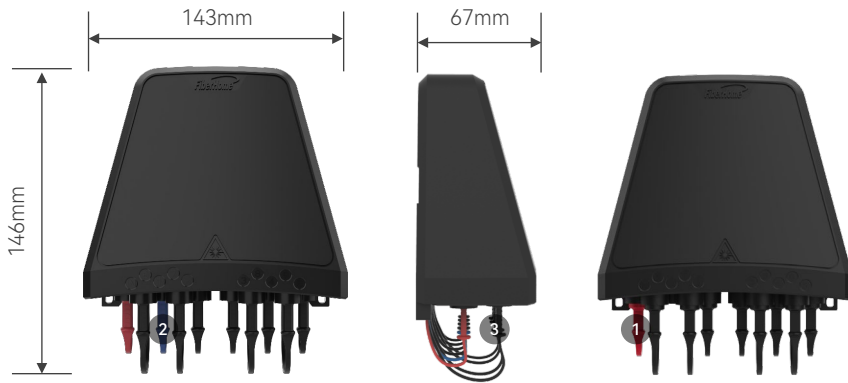

Features

- Beautiful and compact model, convenient installation
- High strength material with good environmental adaptability
- Excellent sealing performance, waterproof, dustproof
- Quick and easy pluggable design at drop cable ports
- Loss prevention design of anti-dust caps
- Eco-friendly materials, non-corrosive for metal component
- Wall mounting, pole mounting and cable messenger mounting installation
- Suitable for underground installation as manhole, handhole and ditches

Specifications

| Item | Specification |
|--------------------------|--------------------------------------|
| Dimension (H × W × D) | 146mm × 143mm × 67mm (±5mm) |
| Cable capacity | Max. 10F (outdoor pre-connectorized) |
| Splitter | 1:9 or 1:8 micro-type splitter |
| Color | Black |
| Working temperature | -30~+65°C |
| Ingress protection grade | IP68 |
| IK resistance | IK09 |

Product Details

| No. | Name |
|-----|--------------------------------------|
| 1 | IN port (red) |
| 2 | Uneven optical splitting port (blue) |
| 3 | Even optical splitting port (black) |

Installation Types

Pole mounting

Wall mounting

Cable messenger mounting

Pole mounting with bracket

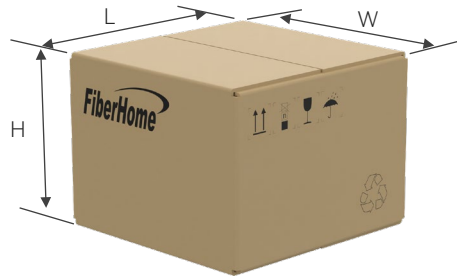

Wall mounting with bracket

Packaging

| Item | Specification |
|----------------|---------------|
| Packaging type | Carton |
| Capacity | 1 pc |
| L | 215mm (±3mm) |
| W | 155mm (±3mm) |
| H | 160mm (±3mm) |
