HN-RTR
Input/output Interface Module

Honeywell

- **Easy to use – simple plug in/out design**

- **Two RJ45 inputs and four RCA outputs**

- **Metal enclosure with rack mount handle**

- **Black finish**

HN-RTR is an audio input/output convertor that provides two RJ45 inputs and four RCA outputs. It allows ordinary analog amplifiers to interface with X-DCS2000/EN which only provides RJ45 interface conversion.
