

## HV48100 BCU

Controller Working Voltage	200V~870V
Self-consumption Power	7.56W
Dimensions (W*D*H)	19.06*20.09*5.51 inch / 484*510*140 mm
Weight	29.32 lbs / 13.3 kg

LFP Chemistry, Grade A Cells & Field-Proven Modular BMS Built-In

Increase Capacity on Demand, Ideal for Residential, Commercial & Industrial Use

Increased Energy Density and Low Resistive Losses

High Power Output, Suitable for Applications that Require Quick Bursts of Energy

Field Integrated Solutions, Wide Voltage Range Compatible with Industry Leading Inverters

Remote Upgrading & Monitoring
