

## **FAT with 12 outlets, splitter 1x8 SC/APC included, outlets for both drop cables, flat and rounded**

### **Product Description**

Optic Fiber Terminal Closure optic provides space and protection for the fiber optic cable splicing and joint.

Optic Fiber Terminal Closure belongs to the accommodation of the optical fiber fusion splice section system. It is widely applied to the connection of the fiber play the roles in sealing, protection, installation of fiber connector head and storage.

Features:

- 1). High quality PC, ABS, PC Alloys material optional, can ensure harsh conditions such as vibration, impact, tensile cable distortion and strong temperature changes.
- 2). Solid structure, perfect outline, thunder, erosion and adding resistance.
- 3). Strong and reasonable structure with mechanical sealing structure, can be opened after sealing and cab be reused.
- 4). Well water and dust proof, unique grounding device to ensure the sealing performance, convenient for installation.
- 5). The splice closure has a wide application range, with good sealing performance, easy installation, produced with high strength engineering plastic housing, with anti-aging, corrosion resistance, high temperature and high mechanical strength and so on.

## Technical data

Product Name	12 core FAT
Material	ABS/PC+ABS/PC
Dimension (mm):	260*210*90 mm
Weight	1.12KG
Splitter	1*8 SC/APC
Adapter	8 SC/APC
Splice tray	2
Ports	2 inlet 12 outlet
Inlet port	Pass-through or Water-proof connector
Install	Wall, pole and aerial installation clamps
Protection	IP65
