-Use T25 Torx driver

Primary Mounting Hole
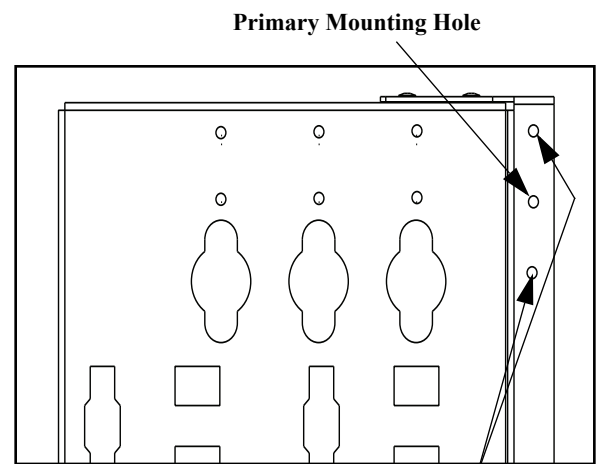

Alternate Mounting Holes

NOTE: Alternate mounting holes are to be used when installing 70"+ POUs on S2BRK6 and S2BRK12 in 42 RU cabinets

D-Ring (S1DR, S2DR) and L-Retainer (S1LR, S2LR) Installation

- **Cable Management D-Rings - Insert mounting tab(s) of L-Retainer into round keyhole slot(s) located on the cable management panel. Slide D-Ring in keyhole slot to engage D-Ring.**
- **Cable Management L-Retainers - Insert mounting tab of L-Retainer into any keyed mounting slot located on the cable management panel. Slide L-Retainer up or down in keyed slot and engage release tab in adjacent cutout. Pull release tab and reverse the process to remove L-Retainer.**
