

Securitron® Magnetic Lock Mounting Accessories

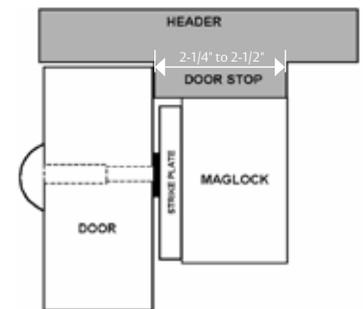

ASSA ABLOY

The global leader in door opening solutions

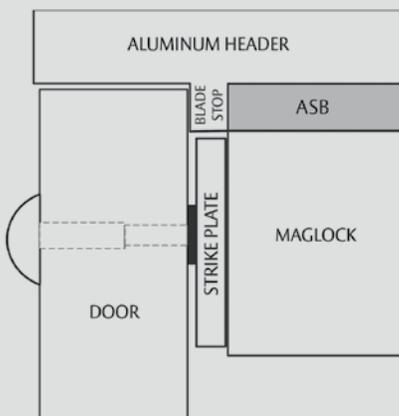

Electromagnetic locks (maglocks) can be installed on various frames and doors using accessories. To figure out what you need for a maglock install, first measure the door stop. Most maglocks require 2-1/4" to 2-1/2" of flat mounting space for direct mount or mounting bracket. You may need one or more accessories if the door stop is less than 2-1/2".

- Securitron M38, M68, M32, M380E and M680E Magnalocks® fit in 2-1/4" of flat mounting space.
- Securitron M62, DM62 and M82 Magnalocks fit in 2-1/2" of flat mounting space.

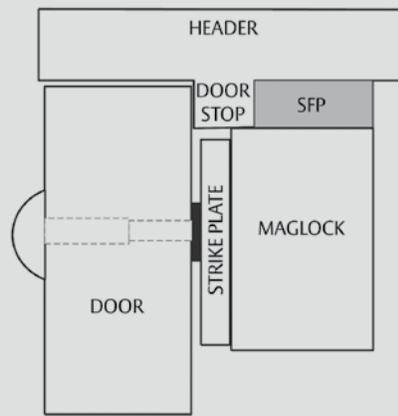

Which maglock accessories does your door need?

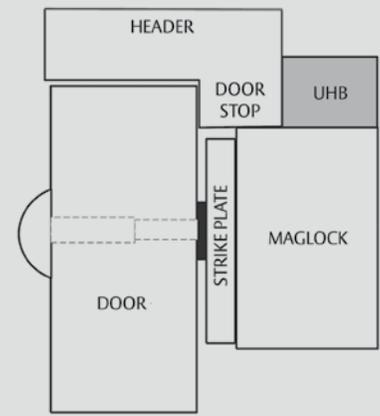

Aluminum Spacer Brackets (ASB)

- For aluminum doors
- Used when the blade stop requires the maglock to be lowered
- Available for M32, M62 and M82 only

Stop Filler Plates (SFP)

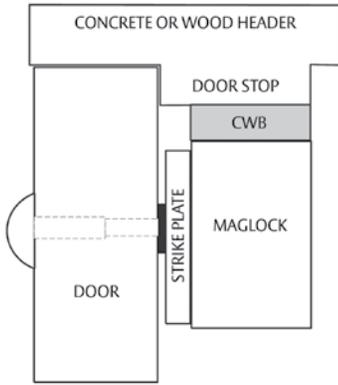

- For steel and wood frames
- Fills or extends a door stop
- Available in 1/4", 3/8", 1/2" and 5/8" thicknesses; all 1-1/4" wide

Universal Header Bracket (UHB)

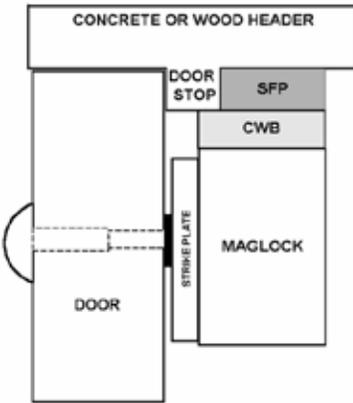

- Extends the header 1" to 1-1/2" to create enough space to mount the magnet
- Provides concealed wiring chamber

Securitron Magnetic Lock Mounting Accessories

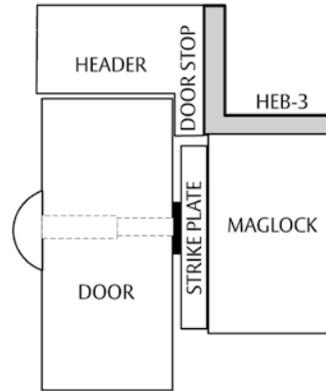

Concrete/ Wood Bracket (CWB)

- For concrete filled metal and wood frames
- Easier to install than blind nuts
- Heavy duty wood and metal fasteners included
- Available for M32, M62 and M82 only

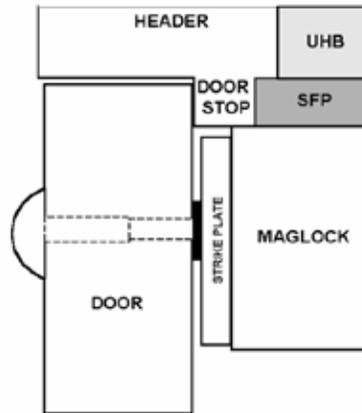

Sample Stop Filler Plate (SFP) and Concrete/Wood Bracket (CWB) combination

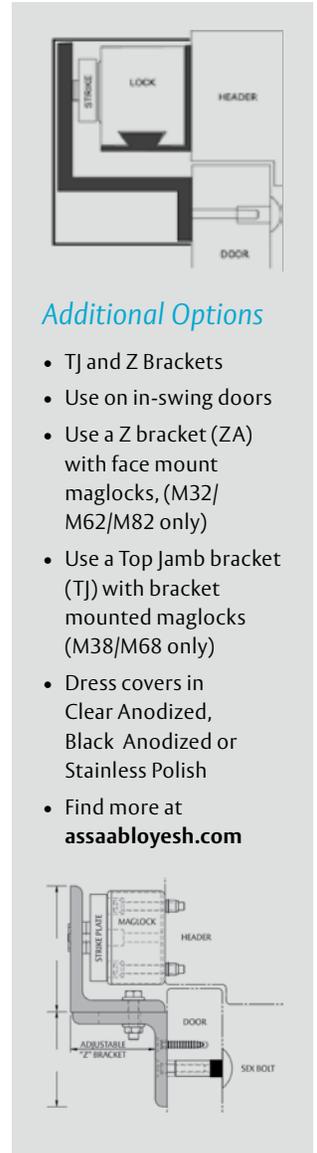

Header Extension Bracket (HEB)

- 90 degree angle brackets
- Extends narrow headers to permit maglock mounting

Sample Stop Filler Plate (SFP) and Universal Header Bracket (UHB) combination

Accessories are available in a clear aluminum or black anodized finish. Verify length of magnetic lock before ordering mounting accessories.

ASSA ABLOY is the global leader in door opening solutions, dedicated to satisfying end-user needs for security, safety and convenience
