

HS-TF-G3

Introduction

Uninterrupted Mobile Gaming, Say Goodbye to Lags! HIKSEMI FUTURE G3 Gaming Memory card is specifically designed for mobile gaming devices. With a whopping 512G storage capacity, it effortlessly accommodates a vast array of games. Boasting a transferring speed of up to 200MB/s and featuring V30 and A2 capabilities, it enables rapid game loading, allowing you to dash through the game world with seamless and lag-free enjoyment!.

Features

- **Superior Performance**

The read speed reaches up to 200MB/s and the write speed is 150MB/s, enabling rapid data transfer and significantly reducing game waiting time. Whether starting a game or loading a new scene, it can respond promptly.

- **Flexible Storage Capacity**

Offering a variety of capacity options from 64GB to 512GB, it caters to different gamer needs. You can freely store a large number of games, save files and related resources without worrying about insufficient space.

- **Powerful Standard Support**

C10, U3 rated with V30 Video Speed ensures fast game loading and smooth downloading, and runs stably without lags during gameplay, bringing you an ultimate gaming experience.

- **App Performance Optimization**

Supporting the A2 standard, it effectively enhances the performance of apps. Making gaming application responses more sensitive and switching more seamless, further improving the overall user experience of the device and allowing you to operate with ease.

- **Wide Compatibility**

Custom-designed for mobile gaming devices and also perfectly compatible with mobile phones, tablets, action cameras, drones and other microSD-enabled devices.
